

**TWO MEN LYNCHED
AT DANVILLE, ILL.****ASSAULT ON MISS BARRETT
AVENGED BY FARMERS.**

The Jail Was Wrecked by the Determined Men Early This Morning, and John Halls, Jr., and William Royce Dangle at the Rope's End Soon After.

Danville, Ill., May 25.—Early this morning a mob which had been in possession of Vermillion county jail for several hours succeeded in locating John Halls, Jr., and William Royce in their cells, took them outside and hanged them for assaulting Miss Laura Barnett.

From midnight, when the crowd first made its appearance at the jail doors, until the victims were reached, it was the determined, desperate struggle of a frenzied mob to mete summary justice, battling against heavy oaken doors and iron bars, and occasionally halted by the grim stand of a little band of defenders of law and order under the command of Sheriff Thompson.

No amount of parleying on his part and no plea from his wife could withstand the mob which had but the one object in view.

Danville, Ill., May 25.—At midnight a mob appeared at the door of the Vermillion county jail and demanded admission. It was composed of farmers from Indianapolis township, and they came to lynch John Halls and William Royce, who assaulted Miss Laura Barnett without result. The sheriff met in this city Wednesday night.

When no answer was obtained to their summons a telegraph pole was obtained and for half an hour the iron door was appeared at a window and besought the crowd to cease. The farmers listened to the sheriff while they rested, and then, with cheers proceeded to batter at the door.

A fire alarm was turned in, but when the department arrived at the jail and found the cause of the alarm the firemen returned to their houses. The police force massed at the jail, but was unable to do anything. It was not believed the mob would succeed in getting into the jail, and it did get in to the first door it was thought the six others to be battered down before the prisoners wanted could be reached would prove a successful obstacle. The sheriff informed the mob he would defend the prisoners at all hazards. The wife of the sheriff tried to address the mob, but her voice was drowned out by cries of "Give us the keys" and "Bring them out." There was some talk of using dynamite, but this was not resorted to.

The ardor of the mob seemed to have cooled somewhat for a time from over-exertion on the telegraph pole, and the men commenced to argue with the police and deputies.

This lasted only a short time when the mob secured a piece of railroad iron and with this the front door was soon shattered. When the infuriated farmers rushed in they found the office vacant and at once commenced on the next door. The office is small and they were cramped for room. A shorter piece of railroad iron was obtained and the blows upon the door, which could be heard on the streets, were received with cheers from the great crowd upon the outside.

The mob grew more determined after its success in breaking down the front door. The police force had its hands full in trying to stop the small fights in the street caused by several good citizens trying to put a stop to the proceedings.

At 1:40 a. m. the mob had broken down six doors and a party had come out for lanterns with which to search the cells. Pounding could still be heard in the jail and the work was being done as fast as possible, the report having been sent into the jail that a company of militia was coming by special train from Paris. A large whistler farmer who was the leader was encouraging the other farmers to work will a will and it seemed certain they would soon have the men at the ends of ropes.

Judge Bookwalter of the Circuit court arrived on the scene and appealed to the mob to leave the jail, but they gave no heed to his words. The sounds of the battering ram could be heard upon the cell doors as the mob proceeded in its search for Halls. The inside of the jail was reported at this stage of the proceedings to be almost a total wreck.

The sheriff appealed to the mob not to liberate all the prisoners. Mr. Barnett, the father of the young girl, and who was in the crowd on the outside of the jail, went in to identify Halls when he should be found.

The assault was made at 7:30 o'clock Thursday evening on Miss Laura Barnett by Halls and Royce, who bore an unsavory reputation. Miss Barnett and Lillian Draper were walking on the Vermillion river bridge at the foot of Main street when they were accosted by the two men. The girls started to run. One of the men knocked Miss Barnett down. Miss Draper escaped up Main street. Their shrieks collected a crowd, which started in pursuit of Halls and Royce, who dragged Miss Barnett with them. They passed John Downs, an old man, who attempted to interfere. He was knocked down by Halls. The two men subsequently escaped, dragging the girl with them. She was found at 12 o'clock unconscious. Halls and Royce were arrested, waived a preliminary examination, and were bound over to the grand jury in \$5,000. Both girls belonged to the same families.

Flames in Kansas Penitentiary.

Leavenworth, Kas., May 25.—A few moments before 7 o'clock last night fire broke out at the Kansas penitentiary, at Lansing, four miles below this city. Before it was got under control it burned the wash-house, laundry-house, storehouse and kitchen. The fire, which started in the dry-house, was well under way when citizens discovered it and rushed to the prison. The buildings burned were the oldest at the prison and were worth about \$10,000. The convicts did not seem anxious to escape, but were thankful for fear of burning up.

EUROPE'S WHEAT CROP SHORT.

Heavy Falling Off in France and Russia.—American Report.

Washington, D. C., May 25.—The crop conditions of Europe and changes in the area devoted to crops in this country are reviewed in a report prepared at the agricultural department. Spring plowing throughout this country is shown to be rather more forward this season than usual at the beginning of May. The work, however, is not evenly balanced, and there is a marked deficiency in the New England, middle and southern states. A general decrease of the area devoted to wheat throughout the entire wheat raising region is reported, due both to low prices and the winter killing of the crop. There is a material increase in the corn area, and in the southern states the disposition is growing to reduce the cotton area and to substitute corn.

Foreign reports show that throughout western Europe the season is very backward, and in northern Europe there has been little moisture. Cereals in Great Britain are promising. Sales of English wheat since harvest are estimated at 27,000,000 bushels, and stocks in first hands at 13,000,000 bushels, a falling off of over 7,000,000 bushels since the corresponding period last year. Importation of corn during the thirteen weeks of the harvest year ending April 13 aggregates 30,000,000 bushels, a decided decrease, but prices have not advanced.

In France the spring sowing of wheat and oats has been completed, and both the wheat and sugar beet areas have been considerably reduced. The wheat crop will be heavily reduced, one estimate placing the product at 288,000,000 bushels.

Reports from Germany are unfavorable, as winter seedings have not advanced satisfactorily. Complaints of considerable damage come from Saxony and Prussia. Rye appears to be quite yellow and sometimes black. In Belgium and the Netherlands farmers have made up arrears and a good harvest is expected. Spain has suffered from heavy rain falls, though an average harvest is now expected.

More than any other European country, Italy has been favored by good weather and the prospect for good crops is highly favorable. The season in Austria-Hungary is very backward and the crop may suffer from the severe winter. Wheat is promising, but barley prospects are not so favorable.

Russia reports are uniformly of an unfavorable tenor and large areas have had to be resown.

ARE AFTER THE BIGAMISTS.

Canadian Women Demand That More Stringent Laws Shall Be Passed.

Quebec, May 25.—Bigamy in the United States by Canadian citizens is one of the subjects to be grappled with next week at Toronto by the National Council of Women of Canada under the presidency of its founder, the Countess of Aberdeen. It has lately been decided here that a married person who is a British subject resident in Canada and who goes to the United States or any place out of Canada and there goes through a form of marriage with another person cannot in Canada be convicted of bigamy. This is the case even when no divorce has been obtained in the United States.

Left a Third Widow.

San Francisco, May 25.—The estate of a dead bigamist is causing trouble in the probate court. When David Jaffe died letters of administration were issued to his widow, Annie Jaffe. In another department of the probate court letters were issued to Fannie Levin of Philadelphia, widow of Louis Levin. When the two widows found out they had the same husband they quietly divided the estate between them. Now the widow of A. Levin, another alias of the same man, claims a large share of the estate which has been distributed.

LETTER FROM CLEVELAND.

Addresses the Democratic Editors of New York State.

New York, May 25.—The two days' stay of the Democratic editors came to an end with a banquet at Delmonico's. The banquet hall was taxed to its full capacity, covers being laid for 250. Colonel William Brown played the role of toast master. After the banquet Colonel Brown, in a witty speech, introduced John A. Mason, who thanked the Democrats of Gotham for their hospitality to the visitors. Mr. Mason then read a letter from President Cleveland, which evoked tumultuous applause. After expressing regret at his inability to be present, the President, in his letter, said:

"When a campaign is actively on foot to force the free, unlimited, and independent coinage of silver by the government at a ratio which will add to our circulation unrestrained millions of so-called dollars, intrinsically worth but half the amount they purport to represent, with no provision or resource to make good any deficiency in value, and when it is claimed that such a proposition has any relation to the principles of Democracy, it is time for all who may in the least degree influence Democratic thought to realize the responsibility.

"Our party is the party of the people, not because it is wafted hither and thither by every sudden wave of public popular excitement and misconception, but because while it tests every proposition by the doctrines which underlie its organization, it insists that all interests should be defended in the administration of the government without special favor or discrimination.

"Our party is the party of the people because in the care for the welfare of all our countrymen it resists dangerous schemes born of discontent, advanced by appeal to sectional or class prejudices, and re-enforced by the insidious acts of private selfishness and cupidity.

"Above all, our party is the party of the people when it recognizes the fact that sound and absolutely safe money is the life-blood of our country's strength and prosperity, and when it teaches that none of our fellow citizens, rich or poor, great or humble, can escape the consequences of a degeneration of our currency.

"Democratic care and conservatism dictate that if there exist inconvenience and hardship, resulting from the congestion or imperfect distribution of our circulating medium, a remedy should be applied which will avoid the disaster that must follow in the train of silver monetization.

Letters of regret were also received from Secretary Lamont, Postmaster-General Wilson, Oscar S. Strong, and ex-Recorder Smythe.

Then Toastmaster Brown introduced Senator Hill as "the Democrat who stands for all that is pure and grand in Democratic politics." The Senator was accorded a perfect ovation as he rose to speak to the toast, "Democracy."

Ryan Answers Carlisle.

Memphis, Tenn., May 25.—Last night at the Grand Opera House the friends of free coinage gathered in full force to hear ex-Congressman W. P. Bryan of Nebraska reply to the sound money speech of Secretary Carlisle before the anti-free silver convention. The audience was large and enthusiastic. Mr. Bryan contrasted Mr. Carlisle's silver attitude now with his views in 1878. When he closed the audience rose to its feet and cheered.

Votes One Fourth Fraudulent.

Kansas City, May 25.—The board of revision, which has been in session for a week, has stricken from the registration lists, 7,400 names of voters out of a total registration of 29,000. These names, more than one-fourth of the whole number, were expurgated because the board found them to be fraudulent and fictitious. They formed a part of the almost unheard of ballot frauds which caused so much trouble after the election last November.

PRESBYTERIANS WANT A MILLION

It Is To Be Applied to the Great Anniversary Reunion Fund.

Pittsburg, Pa., May 25.—The eighth day's session of the 107th general assembly of the Presbyterian church began at the usual hour. Dr. McEwen read a proposition to raise a million dollars by a reunion memorial fund to wipe out the debts of the benevolent boards. Dr. E. E. White asked if the efforts to raise such a fund would not interfere with the regular contributions of the church.

It was explained in answer that the secretaries of the board were heartily in favor of the fund. The resolutions were adopted. They are as follows:

"Resolved, That we request of the Rev. W. H. Roberts, D. D., a copy of his admirable address on 'The Growth of Presbyterianism During the Past Twenty-five Years,' for publication. That the same be issued as a supplement of the Assembly Herald for general distribution throughout the entire church."

The standing committee on temperance then reported through its chairman, the Rev. Ezra B. Newcomb, of La Porte, Ind. The previous deliberations of other general assemblies were reaffirmed in favor of total abstinence from the individual and of the abolition of the liquor traffic. The "legislative panacea" was disparaged in contrast with methods of repression and education. Elder George Irwin, of Allegheny, secretary of the committee, also presented the work done by his colleagues.

The interest in the discussion grew so great that the second order of the day was pushed aside by general consent and a shower of resolutions fell upon the assembly. After a long and spirited, though somewhat disorderly debate, it was decided that the "unfermented fruit of the vine fulfills all the conditions of the sacrament of the Lord's supper." Pleas for prohibition of the liquor traffic were made, but no action in that direction was taken.

The report of the committee on theological seminaries was made a special order for Saturday morning.

SHOT BY A BARONESS.

Cabdriver Reveals Secret of Crown Prince Rudolph's Death.

New York, May 25.—Johann Tranquilli is dead in the hospital of the New York City Asylum for the Insane on Ward's Island. Just before his death he revealed the secret history of the Crown Prince Rudolph's death at Meyerling, January 30, 1889. Johann Tranquilli, while he was no more than a humble fuker-kutscher, or the driver of a fiacre, was the intimate friend and boon companion of Rudolph. For years all the royal frolics were familiar to him. He it was who drove the Crown Prince on all unheralded excursions.

Tranquilli gained for himself a place in the world's history when he drove the Crown Prince to Meyerling the night of Rudolph's death. When the rumors of the tragedy were whispered stealthily from mouth to ear in Vienna he left and came to this country. He seemed liberally provided with money, and for a time lived in lavish extravagance among the Austrians in this city. His claim was that the Prince was attacked by Baroness Vassera, who was in love with him. She then turned a revolver upon herself and expired almost instantly. A Count, who was her relative, then dealt the Prince a mortal blow on his temple.

But of Judge Cooley.

Ann Arbor, Mich., May 25.—Twenty-five hundred people witnessed the dedication exercises of the Cooley bust memorial in University Hall.

DUN'S WEEKLY REVIEW OF TRADE

General Improvement Is Noted, and the Damage by Frost Not So Bad.

New York, May 25.—R. G. Dun & Co.'s weekly review of trade says:

"If wheat has been so greatly injured by the snows and frosts in May that the sudden rise of 12 cents in two weeks is justified the calamity will effect all not believe it, for stocks do not collapse, iron, leather, and hides still rise, and no holders of wheat would sell at 80 cents, a lower price than has been known at this season for thirty years prior to 1893, if current reports were credited. Some injury has undoubtedly been sustained, but our own dispatches do not show that it is really seriously. The temper is to buy, regardless of visible requirements, in the faith that prices are sure to rise. Western receipts of wheat for three weeks have been larger than last year in spite of storms and frosts. But the rise has practically stopped buying for export, as the similar rise did in April, 1894, which was followed by about the lowest prices then ever known. Whether grain has been greatly injured or not, foreign markets will take early occasion to fortify themselves from other sources. The week's sales here have amounted to 155,000,000 bushels, and accounts of damage by frost and by insects are so mixed up that some traders infer the bugs must wear overcoats.

"Corn rose 3/4 cents during the week, though much of the corn killed may be replanted. Pork rose 50 cents per barrel, lard 5 cents per 100 pounds, and oats 2 cents. Cotton also advanced 1/2 cent during the week, with sales of 1,556,209 bales, current estimates putting the decrease in acreage at 13.5 per cent and the crop at 7,350,000. Even this, with the known commercial and spinners' stocks, would give the world for the year and a quarter to come more American cotton than it has ever consumed in a year and a half.

"Purchases of dry goods in the belief that prices must rise have kept the textile mills fairly busy, but the demand for cotton seems slackener on the whole, and print cloths are a sixteenth weaker.

"Failures this week have been 207 in the United States, against 183 last year, and 23 in Canada, against 28 last year."

STOLE HIS WIFE.

Rev. Mr. Sharp Will Neither Prosecute Nor Forgive Her.

Des Moines, Iowa, May 25.—Rev. F. A. Sharp, pastor of the Church of God, of Stuart, arrived in the city yesterday to confront his erring wife and her betrayer, Elder Samuel Roberts, who had eloped together and were arrested here. The arrest was the culmination of a sensational affair. Several years ago Roberts, a singing evangelist, came to Stuart to help Rev. Sharp conduct revival meetings. He was well recommended and was taken into the Sharp family. Soon there was talk of his actions with Mrs. Sharp, and finally a week ago Rev. Mr. Sharp ordered him out of the house. Soon Mrs. Sharp wanted to go for a visit with her sister in Cedar Falls. She started for that place, but instead of going, met Roberts and they came here, staying at a hotel as man and wife. Sharp suspected all was not right, and discovering what had happened, came here with two friends and a warrant for the arrest of the pair. The warrant was served by the two friends of Mr. Sharp, who was at the time unable to leave his room. Mr. Sharp declined to prosecute either of the guilty ones, and Roberts was told to get out of the State also. Mrs. Sharp was told that she must never see her husband again; he would not prosecute, but he could not forgive her. She left for Cedar Falls, where she has a sister.

Cleveland in Fire.

New York, May 25.—President Cleveland's portrait will illuminate the night during the festivities attending the opening of the Baltic ship canal. It will be shown in pyrotechnics from the yard-arm of the cruiser New York at Kiel, and at the same time a fiery portrait of Emperor William II will be displayed. It was suggested to Secretary Herbert shortly before the New York sailed that it would be an excellent idea to have a display of fireworks at the opening of the canal and that the President's portrait would look well among other set pieces. The Secretary thought well of the suggestion and the order was accordingly given.

Open charges have been made against members who are supposed to be under railroad lobby influence.

WHY NOT SCHOFIELD

Col. Jones Suggests His Name as a Presidential Candidate.

St. Louis, Mo., May 25.—In a leading editorial under the heading "Why Not Schofield?" the Post-Dispatch advocates the Lieutenant-General for President, and says:

"Lieutenant-General Schofield, who will retire from the army next fall, exactly meets the Crisp requirements. And he possesses other qualifications.

"Illinois will name the next President. General Schofield is, perhaps, the most celebrated living citizen of Illinois. He is the son of a Baptist preacher, and was born and reared on a farm.

"The next President must be acceptable to Missouri, as the meeting ground of West and South. General Schofield has more friends in Missouri on both sides than any other Union officer."

SAYS MORTON IS THE MAN.

Secretary of State Palmer Declares That the Governor Is a Strong Candidate.

Albany, N. Y., May 25.—"I do not believe there is any foundation for this talk that Gov. Morton has made an alliance with ex-President Harrison to bring about the nomination of another Harrison and Morton ticket in 1896," said John Palmer, the secretary of state.

"Mr. Morton has been vice president once and the office probably has no further attraction for him. Besides, the fact must be considered that he was elected governor of New York in 1894 by the remarkable majority of 150,000 and that his course as governor has been highly satisfactory to his fellow-citizens, irrespective of party. I think that, popular as he was when he became governor, he is a much stronger man today, for, as the chief executive of the state, he has carried out the general will in a variety of ways. Much as I respect Benjamin Harrison, I am convinced that Levi P. Morton is the logical candidate of the New York Republicans for the presidency. If he desires the nomination he will have a solid delegation from New York state to the national convention."

THE BEER TAX IS NOT POPULAR

Brewers Not Pleased With the Plan to Replace the Income Tax.

Brewers in this city do not take kindly to the idea that they, with other brewers of country, are to be called upon by the government to make good the revenue it will lose through the failure of the income tax law. Though they talk but little, it is apparent they are thinking much more. As to the action of their convention, which meets June 11, none of them care to predict, but it is evident preparations are already being made for action at that time, and frequent conferences of prominent ones will be held between now and that meeting to formulate action.

As a rule the brewers are democrats and that fact causes them to hesitate to criticize the proposition to increase the beer tax, but intimations are plentiful that if such a course is adopted the democratic party's campaign finances will not receive much replenishment at their hands in the next campaign.

The proposed increase of the tax on beer to \$2 per barrel, would prove an easy way for raising revenue, but it would be disastrous to the brewing interests of the United States, and particularly to the small brewers, it is claimed. Of course, the price of beer would be raised, but that is not always expedient, as in some cases the discounts allowed saloonkeepers vary according to their competition they have to meet. The result of the tax on brewers would be to considerably lessen the profits.

The effect of the tax on beer drinkers would probably be that they'd get a little more foam. The production of beer in the United States is about 30,000,000 barrels annually, and the increased tax would be quite an item in making up the loss through the income tax being declared unconstitutional.

It is also said that the proposed additional tax would not make so much difference with the brewers, except that it might lessen their sales by making beer more expensive to the consumers. The brewers would simply add the tax to the expense account and govern themselves accordingly. The nominal price to saloonkeepers is \$8 per barrel, but most of them get it for \$6 and \$6.50 per barrel, as there is a regular discount of 15 per cent and sometimes more. The discount would have to be done away with.

A DAY'S NEWS IN THE TOWN.

Miss M. A. MORRISSEY having removed her dress making parlors from the rear of Jefferson block to the millinery store occupied by M. A. Morrissey & Co. on the bridge is now prepared better than ever for dressmaking and would be pleased to meet all her old customers and as many new ones as may favor her. Miss Morrissey is well known to Janesville ladies having been in the dressmaking business for some time past and her return to this city after an absence of some months will be good news to her many friends.

We never enjoyed such a business as we are having. Increasing every day and it's all because we are selling shoes that can be relied upon. No old stuff that has layed in some store for years, and been refused by the people somewhere else, but when a pair of shoes goes out of this store they are the best and the people know it. That's why they come here for good goods. A. Richardson Shoe Co.

No buggy on the market at the present time has stood the test like the Henney. Other buggies have come into the market boomed for a little while but the Henney has always stood the storm, while the others have gone down. This year the Henney people are making more buggies than ever before because there is more demand. If they were not the best they would not increase so much in public favor. F. A. Taylor.

Whether you purchase or not, it will pay every lady in this vicinity to call at our store Monday, Tuesday and Wednesday and hear a corset explained and see it fit by an expert. Many points of interest will be noted. Bort, Bailey & Co.

The number of buggies we sell show how popular the celebrated Henney is. Never a day that we do not sell one and we have sold as high as eight in one day. F. A. Taylor.

PROF. DOW TALKED OF SCOTIA'S SONGS

UNIQUE AND PLEASING ENTERTAINMENT LAST NIGHT.

Growth of the Scottish National Airs Both Musically and Poetically Outlined—Fortnightly Club Election—A "Japanese Tea"—Miss Wiggins Entertains—Choir To Camp Out—Social Events.

Professor J. G. Dow of Madison, told the members of the Rock County Calceonian society all about the origin, history and development of the songs of "Auld Scotia", and his eminently pleasing address was one of the unique features of a social that all enjoyed thoroughly last evening. His talk began at the time of the Stuarts and ended with the present day, his fine tenor voice and thorough knowledge of music adding much to his remarks, which dealt especially with the growth of the songs both musically and poetically. Prof. Dow is a graduate of the University Glasgow, received his musical education in Italy and has but recently prepared an illustrated edition of selections from the songs and poems of Robert Burns with critical notes and introductions more especially for use in the colleges of America, which is now being published in Boston. Burns' vocabulary, he says, is a distinct branch by itself, many words found in his works coming from the Danish and are found in no other language. His entertainment last night was of an hour and a half's duration, and included eight vocal numbers in addition to his remarks and the snatches of song necessary to make his explanations clear. His accompaniment was played by Miss Mae McGregor and was very sympathetically rendered.

Harry Robinson's bass solo was another number that all enjoyed, and for an encore he gave "Out on the Deep" in a thoroughly artistic manner. The affair was in the nature of a reception and a "welcome home" for Dr. James Mills and family and was much enjoyed by all who attended. A social hour followed the programme, after which the gathering broke up.

The annual banquet of the club will be given at Concordia hall on May 31, and about one hundred members of the club and their friends will be present. The ladies of All Souls church will have charge of the banquet which insures its being all that could be desired.

HE DIDN'T KNOW IT.

In the Hands of the Enemy and Without His Knowledge.

Dyspepsia in its incipient stages has been pronounced by physicians the most deceptive disease from which humanity suffers. Countless thousands are its victims and neither they nor their doctors are aware of it. A souring of the disposition and a corresponding condition of the stomach are among the first symptoms. These are followed by a dull headache, sluggish action of the blood and loss of relish for food, which, when eaten, seems to have taken up permanent lodgment. Debility and emaciation succeed. Little on earth is enjoyable and all the ills are magnified. Doctors usually prescribe tonics in such cases. They may serve for a time, but never reach the cause of the disease. Septicide does that—and kills it, as many of our well known citizens are well aware. For sale by Prentice & Evenson.

A Twice Told Tale.

Is a miller's tale, the tale of the grist, as it were. Most people are satisfied with once telling; some millers tell twice and they are not satisfied.

Let us return to our "muttons" altho our tale is not the tail of a sheep.

We are making, these days, telling sales, how can we help it when we tell such prices.

We have today one nicely located six room house on large lot for \$950. We have another still better located and in good repair, cistern, fine well and very large lot for \$1200.

We are about to complete an entirely new house very centrally located with cistern, well with force pump and is a complete home for \$1700.

We have almost three acres of land, right in the heart of fine improvements now going on, fair house, good barn, good well of water, cistern, fruit trees and shade, cheap at \$2,000, but we don't ask but \$1,500 and that is only \$100 more than we asked last week. New developments in the immediate vicinity would warrant us in asking \$250 more than last week's price.

Drive up to corner of Wheeler and Grove streets and notice our beautiful improvements there. It will remind you of the busiest day, three years ago in Riverview Park. We will build for you up there just such a house as you want and make easy terms.

East Riverview Park is coming to the front. Note the new house and barn corner of Cottage Place and Vista avenue, north. You can't find as good a one in this city for \$2,000. You can have this one for \$1,750. It is bargained for by a Chicago man but we can build him another.

Lots in East Riverview Park are "dog cheap" at \$500, but we only ask \$400 and give you free rides in our wagonette for a year besides. If you locate in East Riverview you will be right in the line of the best improvements in the city.

We have got a pair of lots centrally located for \$650 for the two. There are no others so central in Janesville for less than \$450 each.

In fact, we have gotten the earth, or a good portion of it, the best portion. Yours very truly,
Geo. L. & Sarah H. Carrington.

Her Majesty's Corset.

Next Monday, Tuesday and Wednesday Miss Keppler, an expert corset fitter will be at our store and will fit and explain Her Majesty's Corset to all ladies calling. This is an opportunity seldom enjoyed by the ladies in towns of this size and we would be pleased to have every lady in the city visit us during those three days and hear about the best corset in the world. NEW ASSOCIATION WILL BE FORMED

BUSINESS MEN'S CLUB WILL NOT DISBAND.

Directors Are Instructed To Revoke the Order For the Sale of the Association Property, and Further Steps Will Be Taken at Another Meeting To Be Held Monday.

The Business Men's Association will not disband, the property will not be sold, and the city will not be deprived of the benefits of the organization.

This was determined at a citizens' meeting held last night, which was well attended. After a good deal of discussion, in which the sentiment of continuing was unanimous, it was decided to recommend to the association that the directors postpone the sale and that the association re-organizes on a basis of no membership fee, but with dues at \$10 a year payable in semi-annual installments in advance, and that a meeting of the association be called for next Monday evening to perfect the organization.

This is a wise move, and should meet the hearty endorsement of every business man in the city. Janesville needs just such an organization—a place where men can get together socially or in a business way as occasion may require. No business man can afford to be a hermit. There is no good reason why he should not be on good terms with every business man in the city, even his competitor. Sometimes it requires the presence of death to make men realize this fact, as was the case recently with the grocerymen. People don't realize that they are paying any more for groceries than they did last year and yet strangers as it may seem, all the grocerymen are on good terms with each other. This is as it should be. In this world of sharp competition, where every man is chasing the "mighty dollar," men do well to rub up against each other occasionally in a social way, and compare notes.

The newspaper men all over the country adopted this policy years ago. They haven't all amassed fortunes and they have never been known to "run corners" but they usually manage to live in harmony, and get out of life some of the good things on the way. Physicians, lawyers and business men generally, would be benefitted by the same sort of contact. The Business Men's association brings all classes of business together, the social features may be cultivated without neglecting the home.

In a broader sense it should represent the thrift and enterprise of the city, the time is not far distant when enterprisers of public interest will again command attention. No man in business can afford to say:

"I have no interest in the general prosperity of the city."

This sentiment is not common, but neglect of general interest is altogether too prevalent. The association that is about to be revived, died a natural death from neglect. When it is re-organized next Monday night, every man who goes into it should feel that he has some personal responsibility for its success; and he should mentally resolve that once a month, at least, he will register his interest by his presence and moral support. Janesville has at least one hundred business men who can afford to pay ten dollars a year for the support of this enterprise, and pay it cheerfully. The meeting Monday night should be well attended, as it doubtless will be.

THE LOGICAL CANDIDATE.

Ex-President Harrison is just now in New York, posing for his picture and a renomination. He is recognized by his friends and supporters as the logical candidate, the model president, and the one man capable of filling the presidential chair, with credit to himself and honor to the party.

While it is too early to forecast with any degree of certainty, the result of the next republican convention, it is safe to assume, that the candidate from Indiana, will meet with strong opposition to say the least, in trying to gratify his personal ambition. No one disputes the fact that he made a good president. He found the country in a prosperous condition, and by the aid of a republican congress left it in the same condition. He owed his nomination to James G. Blaine and entered upon the duties of that office, with the declaration that he believed in the one term principle. He left it with an inordinate desire to hold it the rest of his natural life. The methods adopted and engineered by himself to capture the Minneapolis convention, are too fresh in the minds of many republican leaders, to make his candidacy in 1896 popular. He was nominated in 1892 by the south and the office holders of his administration. When the news went over the country, it was like a wet blanket for the republican party, and the campaign that followed was lifeless and hopeless from the day it opened. Ex-President Harrison is a good man in many ways. He has been honored by the highest office within the gift of the American people. He should be satisfied to spend the rest of his days in the enjoyment of the honors already conferred, and use his influence to crown some of his friends who are still living, with the same title of distinction that he enjoys, as the result of the friendship of the man who has gone, and whose memory is still cherished as the greatest statesman of his day and generation.

The republican party is not destitute of good presidential timber. There will be plenty of it in sight at the next convention, and the "logical candidate" may be lost in the shuffle.

THE LAND CRAZE.

If the west is anything it is enterprising. When it comes to securing a title to government land enterprise does not express it, as was evidenced at Oklahoma the other day when 15,000 people made a mad rush over into the Kickapoo reservation, and swooped down like a flock of vultures, on 450 claims. 14,500 of them came back disappointed, and immediately organized a town, elected officers and in twenty-four hours were doing business. The other 500 will be more disappointed when they become familiar with the prizes they have won. These conditions are decidedly abnormal and unhealthy, and are of the same character as the free silver craze of the west. "Something for nothing" seems to be the popular motto with everybody in the race. Every intelligent man knows that the west and south abound in land, so cheap in price that any one possessing ambition to secure a home, can do so in a legitimate way, with moderate expense. There has been money and energy enough wasted in the Oklahoma country during the past two years, to populate and develop a good-sized state in a civilized country.

The many friends of Ex-Governor Hoard are pleased with the recognition accorded him by his Grand Army comrades.

Mr. Hoard enlisted as a private and retired after four years' active service as a private, but possessing all the elements of manhood that characterize the true soldier, and that have since been recognized and honored. He belongs to the type of self made men, possessing integrity, enterprise, cordiality, and many other virtues that have won for him a place in the rank of the prominent men of his state. As department commander he will bring to the office the same spirit of modesty and unassuming authority that has marked his public life, and made him so popular. The Grand Army made a wise choice in electing him to the position.

The commercial value of the silver output for 1894 was thirty-one and a half million dollars. Under a free coinage act, it would have represented twice that amount. No wonder silver producers favor free coinage.

The sugar planters of the south are not only interested in a protective tariff, but the cotton planters are also waking up to the fact that something

must be done to shut out foreign competition. The United States imported five and one-half million pounds of raw cotton in March, 1895. The "solid south" is buried beyond resurrection.

THE TOWN TALK OF A DAY.

The way the shoe market in Janesville is at the present time it behooves a person to look around before buying. That's just what we like. Were it possible to make comparisons we would make many more sales than we do. A stock such as we have at present is worth much more than one hundred cents on the dollar, but as we bought it cheap, and as it stands us but 20 cents on the dollar today we propose to keep on selling at 50 cents on the dollar until every shoe is gone. Becker & Woodruff.

We know to a positive certainty that no carriage works in the U. S. puts as much attention to a buggy as we do. We are young, and "building up" a reputation, and it is easy to see that we would naturally turn out a better job than some of those factories who depend upon their reputation to a great extent. When you purchase one of our make of buggies you get a buggy that will give satisfaction in every respect. That's why some of the best citizens in Janesville are riding in them. Wisconsin Carriage Top Co.

PARTICULAR attention is called to the advertisement in this issue headed "seven cents a day." This is the amount it will cost to have the best cyclopedia in the world. It is endorsed by the best educational people of the day such as Prof. J. L. Freeman, Prof. F. A. Turner, Prof. J. W. Stearns, and Prof. Chas. R. Barnes, all of the University of Wisconsin. Can be seen and examined at King & Skelly's.

From way out in western Iowa came an order for two of our Albemarle Stanhopes. The person ordering had seen one of them some place and decided to have one at once. He told a friend of his about it and his friend had him order one for him. It's impossible to keep people from buying this excellent make of buggy. No buggy in the market ever equaled them in any respect. Wisconsin Carriage Top Co.

The low prices we are giving on ladies fine shoes is a surprise to everybody and the question is invariably asked, how can you sell such nice shoes so cheap? Have you seen the bargain? Come in and you will say with the rest of the people that the A. Richardson Shoe Co., are giving more honest value for the money than any shoe house in the city.

SIX COWS ROASTED IN A BARN FIRE

A DISASTROUS FIRE AT THE HOME OF SEYMOUR CASE.

He Had No Insurance, and the Loss Will Be a Total One—Tramps Supposed To Have Fired the Building—Other News From About Town.

SEYMOUR CASE's barn, one half mile east of the village of Clinton, was destroyed by fire at 5 o'clock last night. In the barn there were eight milch cows and four hogs. Two of the cows were rescued in time to save their lives, but six cows and four hogs were burned to death. Mr. Case's hired man had just put the cows in the barn and had returned to the house for his milk pails. He was not absent but a few minutes, but on returning to the barn found it full of smoke, and he had only time to rescue two of the eight cows. There was no insurance on the property. The loss is estimated at \$1,000 and the blaze is supposed to have been started by tramps.

FINES ARE IN STORE FOR THE DRUGGISTS

TWO OR THREE CAUGHT NAPPING YESTERDAY.

Representatives of the State Food Had To Wait an Hour For the Registered Pharmacist To Appear, Notwithstanding That the Law Says One Shall Be in Charge All the Time

Two or three local druggists began to make plans to have a fifty dollar fine handy last night when they learned that a stranger had loosed about their stores an hour yesterday while waiting for the "registered pharmacist" to put in appearance. This they knew was an infraction of the pharmacy law and the stranger was in town to ascertain whether or not local druggists were living up to the requirements of the pharmacy law, and that he has caught several of them napping. Whether prosecutions are to follow or not has not yet developed, but there appears to be an opportunity or two. The man who is preparing was for the careless pharmacist is traveling under the auspices of the state board of pharmacy.

There are several particulars in which digressions from the requirement of the law are found. One, and perhaps the least important of these provisions is that the pharmacist's license shall be posted in a conspicuous place in the store, where it will be in plain view of customers.

Another provision with which all of the druggists have not complied, is that they should keep and file with the city clerk the third Tuesday each year a complete registry of all liquors sold during the year, giving the name of the person to whom it was sold, the amount, and the purpose for which it was sold.

These requirements are made by the old law, section 1548 A of the revised statutes, which has been in force several years, and which has not been changed. But there is a provision in the pharmacy law passed by the last legislature, and which took effect by publication April 25, which requires that a similar registry be kept of all sales of poisons, and that all these poisons shall be distinctly labeled as such.

It is also made unlawful to sell any poison except paris green properly labeled, except by a registered pharmacist.

The purpose is to carry out the determination of the state board that the pharmacy law shall be lived up to, and a few prosecutions are likely to be made in order to convince the druggists that the board means business.

The list of poisons is quite an appalling one. The law specifies especially aconite, arsenic and its preparations, belladonna, biniodide of mercury, carbolic acid, chloral hydrate, chloroform, conium, creosote, croton oil, cyanide of potassium, digitalis, hydrocyanic acid, morphine, nux vomica, oil of sassafras, oil of tansy, oil of bitter almonds, oil of cloves, opium, oxalic acid, opium and preparations of opium, phosphorus, sulphuric ether, strychnine, sugar of lead, sulphate of zinc, white precipitate, red precipitate, or any mixture containing enough of any said poisons or of any combination of them sufficient to kill a person taking the same.

THE TEACHERS MEET AT ORFORD.

A number of the teachers of Rock county passed through the city this morning on their way to Orford, where Superintendent Ross is holding a teachers' meeting today. President Salisbury, of the White water Normal school, was among the party and he will address the meeting on the subject of "Higher Education," while Charles Hemmingway, formerly of this city, has prepared a paper on "The Coming Teacher." Those who went from here were: Misses Agnes Joyce, Julia Dutton, Maggie Joyce and Nellie Walsh, Professor Buell and Charles Hemmingway. The program prepared was as follows:

ROBBERS WERE SCARED AWAY

The Night Prowlers Didn't Get Into Mrs. Dresser's Home

Two tramp-burglars, who were either negroes or equipped with masks made an unsuccessful attempt to enter the home of Mrs. E. D. Dresser, 117 North Franklin street at 3 o'clock this morning. Mrs. Dresser was awakened by a noise at the window and listened at the pantry door.

"If we take off the screens they'll hear us" said one of the men. Mrs. Dresser then rattled the door and the prowlers left. She got a good view of them and says they were colored men or wore masks, she couldn't tell which. The police think they were tramps.

MAY NOT GET HER \$800 AFTER ALL

Legal Questions Are Now Being Argued Before the Court.

Emma Belle Carey, of Evansville, is not likely to collect the judgment of \$800 awarded her by the jury as the damages for injuries and defective sidewalk, as there are many legal questions which tend to delay the collection or annul the judgment. It appears that the proceedings were first commenced by attachment, the plaintiff's attorneys, in order to obtain service on the defendant, who was supposed to be in Iowa, attached his real estate in Evansville, and on this proceeding got the case into court. Now Martin Broderick, the defendant, comes forward with a motion to vacate the attachment proceedings. This motion is being heard in the court chambers this afternoon, and should the motion prevail, it is claimed the judgment of \$800 would not be worth a great deal.

MUCH FRUIT NOW SOLD HERE

Janesville Wholesale Houses Handle Most of the Business.

The bulk of the fruit sold to the different retail dealers in this city, is bought of the wholesale houses that are now located here. A local dealer who has handled fruit for years, says that since the establishment of wholesale houses, twice as many merchants handle fruit, for they can buy it just as they see fit. Oftentimes they would order fruit from Chicago, which would spoil on their hands, entailing a total loss to them. The way it is run now, if there is any loss, the wholesale merchant has to stand it, while the retailer orders in quantities to suit his trade. Fruit is now plentiful, as high as one hundred and fifty boxes of strawberries being received daily.

WILBUR PLAYING GREAT BALL

Janesville Man Is Doing Good Work At Lima, Ohio.

George Wilbur, who is playing ball with the Lima, Ohio team is doing great work, and the press of that city is unanimous in his praise. He is known there as "Big George" and the papers say that in a recent game he went to bat, when three men were on bases, and they relied on his batting to win or lose the game. He hit the ball, and according to last accounts, it had not been found yet. Wilbur is now captain of the team. Besides being in first place in that league, they are drawing larger crowds daily than have been seen in that city for many years.

SECOND HAND STORES FLOURISH

Janesville People Are All "On the Sell."

The second hand stores seem to be doing a flourishing business, especially in the buying line. A dealer who has been in the business for years, made the remark that he never has seen the time when people all over the city were so anxious to sell their household goods as they are at present. This is, of course, attributed to the hard times and the scarcity of work. He says many a family has depended upon the gradual sale of their household goods for their support during the past winter. A great many people have not the money for first-class goods that they had two years ago, he advances as another reason.

MRS. SHELTON IS HEARD FROM

Writes Her Creditors to Send Their Bills to Milwaukee.

The fair Mrs. J. M. Sheldon, whom local merchants trusted for various goods amounting to various sums, has been heard from. This time she turns up in Milwaukee and a number of her creditors have received letters from her informing them that if they will send their bills to a certain address in that city, they would be settled. The gentlemen in question sent their accounts but no answer has been received. Some think it a joke, but the police say the notes are in her own fair handwriting.

BARBERS TO PLAY BALL JUNE 2

Janesville and Beloit Nines to Meet at Athletic Park

Janesville and Beloit barbers will play a game of base ball at Athletic park on June 2, the game being the outcome of the challenge sent up by the Line City team. Close shaves, a local man says, will be one of the features of the game and both nines are confident of being able to shampoos the other. IN A WOODEN PAIL

TRAGIC DEATH OF LITTLE JULIA DONAHOE TODAY.

There Was But Four Inches of Water in the Pail Into Which She Topped Head-Forward, But That Was Enough To Smother Out Her Little Life.

Little Julia Donahoe toppled head foremost into a pail of water at the home of her parents this morning and when her mother pulled her out, life was extinct.

There was but four inches of water in the pail, but that was enough.

Mr. and Mrs. Jerry Donahoe reside on a farm three miles west of the city on Mineral Point avenue. This morning Mrs. Donahoe was engaged in washing, and little Julia was playing about the room. Near the back door there stood a large wooden pail that had contained cologne in which there was about four inches of water. Mrs. Donahoe was paying little attention to the child, although she noticed the little one dipping water out of the pail with a small can. Presently she turned around and saw that the little one had fallen head first into the pail.

Mrs. Donahoe grasped the situation at a glance and hastened to rescue her babe but she was too late. The little one was dead, and Dr. J. F. Pember, who arrived soon after, was also powerless.

The mother, whose heart was nearly broken by the sudden shock, explained that she was washing, and was out on the steps, the little girl being at play around her.

"I did not miss her over two minutes before I saw her in the pail. When I took her up her eyes opened and I thought her still alive. I sent for the doctor, but was too late," she sobbed. Funeral services will be held from St. Patrick's church at 2 o'clock Sunday afternoon.

THE LATEST MODE.

Capes and Coats—Beauty of the Present Style of Dress.

Long cloaks and coats are to be worn for evening functions as wraps, but all the capes for the daytime are very short, barely clearing the elbows.

Coats are very much abbreviated. They have basques extending from four to eight inches below the waist. Some barely clear the waist. They look very smart and jaunty and are becoming to the figure, especially in the case of small women, since they impart a look of length of limb.

The cape, which has been and is so much worn, is one of the most generally becoming garments ever invented. It conceals all deficiencies in the upper part of the figure, and in its present frilly development is as feminine an article of wearing apparel as the most violent woman's spherist could desire. For that matter, its becomingness is not confined to women, for it is generally acknowledged that a man in a cape overcoat is a thing of beauty.

This is an era in which plain women may appear to almost as much advantage as their beautiful sisters. Not only are

GLACE SILK GOWN.

they favored by the cape, but by immense sleeves, highly ornamented collars, effective veils and expansive bodice trimming. When fashion decreed celskin skirts, tight sleeves and plain corsets, women were more dependent on their natural gifts of form and their gracefulness than on external aids, the mode displaying most ruthlessly all angularities of shape and movement. But now we have bouffant sleeves to widen narrow shoulders, ruffles and puffs to expand the bodice, ample skirts to shroud the lower part of the figure and conceal large feet, highly trimmed headgear to distract attention from the countenance and ruffled capes to give a coquettish finish to the costume.

The gown illustrated is of silver gray glace silk. The plain skirt has godets at the side as well as at the back and is untrimmed. The plain, tight silk bodice is covered with a blouse of blue mousseline de sole, very much gathered. A corselet of jet and pearl passementerie confines the waist, and there are bretelles to match, which stop at the shoulder. The draped collar is of mousseline de sole, as are the frills which serve as cuffs to the bouffant silk elbow sleeves, which are finished with jet passementerie. JUDIC CHOLLET.

STYLES IN HEADWEAR.

Ribbon Much Used as Trimming—Poke Bonnets Again.

A great deal of ribbon will be used as trimming, and also velvet. Rosettes are still worn, but are less fashionable than loops or soft, puffy effects. A new model of a stylish bonnet has a scarf of bias velvet tied in a large single knot. This is attached to one side of the bonnet, which is a small poke, and underneath this knot are the stems of three plumes. These curl up over the top of the bonnet, and the scarf is twisted in a soft roll and passes over the edges in front of the crown. There is a pronounced line between crown and brim on some of the new bonnets, and this may be a forerunner of the revival of a former style with flaring front, prominent crown and ruffled curtain. It is doubtful, however, if women will ever consent to again shroud their well-shaped heads and carefully cultivated hair in one of these all over abominations in the shape of bonnets which shadowed our grandmothers' beauty.

For children the sailor hat is the accepted style for ordinary wear and may also be worn for best, but for the finest hats it is

COIFFURE.

often the case that the brims are rolled and pinned in various ways, with trimming of bows, loops, rosettes, plumes and aigrets. For best there are little bonnets of silk, with box plaited fronts and soft crowns. Another style has a rose ruffling of pinked silk or bias silk frayed at the edges. On one dainty little bonnet there was a very full ruffling of feather edged gauze ribbon. Another had plaited made of ribbon with a plush edge. This made an extremely attractive background for the pretty baby face inside it.

A sketch is given of a new coiffure for the benefit of those women who are fond of fanciful hairdressing. The hair is waved and drawn lightly back to the crown of the head, where it forms an erect curve and a few light, loose curls, with an empire effect. A Greek fillet of gold and jewels finishes the coiffure. JUDIC CHOLLET.

A Witty Lawyer.

A lawyer residing in the north of England and noted for his laconic style of expression sent the following terse and witty note to a refractory client, who would not succumb to his reiterated demands for the payment of his bill:

"Sir—If you pay the inclosed, you will oblige me. If you do not, I shall oblige you."—Tit Bits.

In the Past

A good many jokes have been elaborated—at the expense of druggist—on account of his supposed large profits. The above little clipping from the great New York Herald may be taken as an indication that the press and the public are beginning to see the question in another light. We could write volumes on the subject, but perhaps you would not waste through them. This, however we will assert here:—The drug store is the proper place to get anything in the drug line, and we can prove that our prices are as low and our goods as good as anywhere else in town. And we do not try to prove this by advertising "draws" at cost; and under, with some article from somebody else's line of business. Here are two of our own lines suitable for present moments.

A DAY'S NEWS 'IN THE TOWN.

SPECIAL sale of cheese at Dunn Bros., this evening only.

THE Henny people make buggies, no imitations, and we sell those buggies. F. A. Taylor.

Men and women's \$3, \$4 and \$5 shoes today and tonight at \$1 to \$2.50 at Becker & Woodruff.

GREAT sale of Bibles and Sunday school libraries for the next thirty days at Sutherland's bookstore.

Ice cream and cake will be served at the parlors of the Congregational church, Tuesday evening, May 28.

Men and women's regular \$3, \$4, and \$5 shoes are now going at \$1 to \$2.50 a pair today at Becker & Woodruff's.

Our reputation as foot fitters stands us well in hand today. We are known the country over to give the best fit there is on shoes and now that we have the best shoes going at 50 cents on the dollar we are crowded with customers. Becker & Woodruff.

We have offered bargains in shoes for the past six weeks that no one could meet, but just to have a little fun we decided to give some extra bargains for today and tonight, and we are doing it. Come in and see. In many cases the price asked is not 25 cents on the factory cost. Becker & Woodruff.

THERE seems to be no end to the fine shoes we have. It is actually a shame to sell any such fine goods at 50 cents on the dollar of the factory price. If any other dealer in the town had them they would try to get a nice profit on one hundred cents on the dollar, but we are into it and will let them go. Greatest shoe bargains ever in this burg. Becker & Woodruff.

THE crowd we had today and the people who tried to get inside our store would have filled a room twice the size. Many had to go away because there was not room inside, but they won't be disappointed as we will continue to sell shoes just as cheap as ever and never let an opportunity pass by to save the people a few dollars. Winslow & Lowell.

WE'RE not kicking on business; all we want is for it to keep up just as it has the past six weeks. We are satisfied with our sales, we are satisfied with our profits, and we know the people are more than satisfied with the shoes we have sold to them for each and every person who purchased here, told their friends and those friends came and purchased. Delighted? Should say they were. Never before were such fine shoes sold at 50 cents on the dollar. So we'll keep it up. Becker & Woodruff.

BOGUS CIRCUS ADVANCE AGENT

New Game Is Being Worked On Rock County Merchants.

If a man representing himself to be the advance agent of "Walter L. Mains Royal English circus" comes into your place of business, be sure and identify him beyond a doubt before you have any dealings with him. A man who represented himself as that individual visited Evansville the other day. He made contracts for livery rigs, and for meat, provisions, feed to be paid for and delivered upon the arrival of the show, and said he would return in four days with his advertising car, which of course never came. His game is to draw the person with whom he had contracted into a deal whereby he would raise the supposed order on the circus company and divide the difference. That is, if he had contracted for twenty-five dollars' worth of feed, he would give an order for thirty-five dollars if the feed dealer would advance him five dollars. The circus never comes, and the dealer is a five dollar loser.

He is a slick man, no doubt, with considerable circus experience, and evidently working the game as a business, as he carries a stock of printed forms for contracts and orders.
